EDUCATION

Ph.D., Natural Resources, 2019
M.S., Natural Resources, 2014
School of Natural Resources & the
Environment, University of Arizona

B.Tech., Information Technology, 2008
Veermata Jijabai Technological
Institute (VJTI), Mumbai, India

SKILLS

- GIS & Remote Sensing (Esri - ArcGIS Pro, ArcGIS Online)
- Open-Source GIS (QGIS, PostGIS, Leaflet)
- Data Analysis & Visualization (Excel, Matplotlib, Pandas, D3.js)
- Programming (Python, C#, VB.Net, SQL, Shell)
- Git/GitHub
- Hydrological Modeling
- Email Marketing (Mailchimp, Salesforce Marketing Cloud, Constant Contact)
- Website Design & Development (Wix, Squarespace, HTML, CSS, JavaScript)
- Teaching/Instruction
- Project Management

PROFESSIONAL OVERVIEW

GIS and information systems professional with 10+ years of experience spanning geospatial application support, IT infrastructure management, and technical team leadership. Proven record of delivering GIS solutions across academic, government, and public-sector contexts. Combines deep technical expertise in Esri and open-source GIS platforms with strong stakeholder communication and project leadership skills. Committed to aligning technology systems with organizational goals in collaborative, results-driven environments.

EXPERIENCE

Associate Professor of Practice

School of Geography, Development & Environment, University of Arizona | 2020 – present

- Instructor - GIS Courses (Python Programming, Open Source GIS, WebGIS, Spatial Analysis, Capstone Projects)
- [ATUR Project](#) - Led the urban sub-team investigating stormwater capture and green infrastructure opportunities across Arizona's major metropolitan areas.
- [Mapping Racist Covenants Project](#) – Assistant Director developed an interactive public-facing GIS map documenting racially restrictive housing covenants across Tucson, AZ.
- [The Nature Conservancy Project](#) – Principal Investigator Led funded research project (\$43,734) as Principal Investigator comparing hydrologic and hydraulic modeling techniques for drainage design across Arizona regional flood control districts.

Graduate Researcher

School of Natural Resources and the Environment, University of Arizona | 2011 – 2019

- Developed the AGWA Urban Tool, a GIS-based hydrological modeling application, using C# and VB.NET.

Software Engineer

Accenture Services Pvt. Ltd., Mumbai, India | 2008 – 2010

- Provided middleware application support for Vodafone, troubleshooting and maintaining enterprise systems in a large-scale telecommunications environment.
